

## SHORT CURRICULUM VITAE

Dr. **Christos V. Makris** was born in Thessaloniki (Greece) on 26/02/1979. He studied **Civil Engineering** in Aristotle University of Thessaloniki (AUTH) and acquired his Diploma in 2005, with **specialty in Hydraulic and Environmental Engineering**. He holds a master's degree Diploma (**MSc**) in **Coastal Water Resources, Engineering and Management** from National Technical University of Athens (NTUA) since 2007. He received a Doctorate Diploma (**PhD**) on **Computational Fluid Dynamics for Wave-induced Coastal Processes** from AUTH in 2014.

He is an **Assistant Professor of Computational Fluid Mechanics for Hydraulic Engineering** at **Democritus University of Thrace (DUTH)** and also works as a **Research Associate** at **AUTH**. He is a member of the Technical Chamber of Greece (TCG/TEE), the Hellenic Hydrotechnical Association (HHA/EYE), the International Association of Hydraulic Research (IAHR), and the European Geosciences Union (EGU).

He teaches the undergraduate courses: a) Fluid Mechanics, b) Computational Fluid Mechanics, c) River Hydraulics and Engineering, and the post-graduate courses: a) Numerical Methods in Fluid Mechanics, b) Computational Simulation of Marine and Coastal Environmental Processes in Catchment-Beach Systems in the PPS "Hydraulic and Environmental Engineering", and d) Residual Flows and Coastal Flooding: Concepts of Hazard, Risk, Vulnerability and Resilience in the PPS "Hydrometeorological Disaster Management". He has taught as a University Fellow Scholar in AUTH the courses: a) Mathematical Modelling of Water Quality in Aquatic Ecosystems, b) Hydraulics for Groundwater Flows, and c) Numerical Models for Hydraulic Engineering. He also has 7 years' experience as a Teaching Assistant for the courses: Coastal and Port Engineering, and Coastal Engineering Projects.

He has written **4 scientific/academic theses** in graduate, post-graduate, doctoral and post-doctoral level. He has **110 published articles, books, book chapters, papers, abstracts and presentations**: 20 peer-reviewed articles in international and national scientific journals with impact factor (*IF*), 2 peer-reviewed book chapters, 1 academic graduate-level textbook on Coastal Oceanography/Engineering and Maritime Environmental Hydraulics, 52 peer-reviewed conference papers, 19 conference abstracts in the proceedings of international and national scientific conferences, and 16 miscellaneous publications (newsletters, lectures, etc.). He is an *ad hoc* reviewer for **34 journals** and **3 conferences (73 reviews)** and **guest/topic editor** in **2 scientific journals**. He has also contributed to the formulation of **61 technical reports** in the framework of research projects. His published research has **848 citations (466 hetero-citations, 55%), h-index: 15, i10-index: 21, i1-index: 74**, and *Research Interest* score: **991**. He has received a distinction (Thomaideio) prize for MSc students by NTUA in 2007, and one scholarship for post-doctoral research (IKY-SIEMENS excellence funding of the State Scholarships Foundation; SSF/IKY) in 2016-2017.

His research interests and experience are focused on the following fields: port/coastal/ocean/maritime engineering/hydrodynamics/modelling, physical and operational oceanography, computational fluid dynamics, turbulence models, numerical modelling, surf zone dynamics, SPH/LES, wave models, design of coastal protection works, design of submarine diffusers and outfalls, storm surges and sea level variations, coastal flooding, sea level extremes, oceanographic forecast systems, climate change impacts on the marine environment, seawater quality monitoring, oceanographic field measurements, development of educational software.

He has participated in **16 international and national research projects** in NTUA and AUTH, such as **Accu-Waves** (<http://accuwaves.eu/>), **Wave4Us** (<http://wave4us.web.auth.gr/>), **MEDAQCLIM** (<http://medaqclim.po42.com/>), **CCSEAWAVS** (<http://www.thalis-ccseawavs.web.auth.gr/>), **TIMMOD** (<http://timmod.org/>), **LocAll4Flood** (<https://locall4flood.interreg-euro-med.eu/>), etc. Furthermore, he has participated in writing and submission of several research proposals for national and EU-funded programs. Moreover, he has experience in organizing international workshops (DMPCO, Wave4Us, Accu-Waves, etc.).
